LIADO is comprised of over 130 fabulous women! The Fundraising Committee is shaping up but we still need two members from New Port Richey to assist the Safety Harbor members who have volunteered.

You may wonder what this entails? The committee will be responsible for sourcing new fundraising initiatives for LIADO and seeing them through fruition with help from the Board and all members. The group will meet independently and then present information to the Board.

Who wants to have some fun and help LIADO raise much needed funds for the charities who rely on our support?

Trotula of Salerno (11th & 12th Centuries) was a female physician who worked in Salerno, the epicenter of medieval medicine in Europe. Trotula was one of the most famous physicians of the time and a **pioneer in women's health**. She is considered the **world's first gynecologist**. She was also the first to believe that women should not suffer relentless pain during childbirth, advocating the use of opiates to dull the pain of labor.
